

— FOUR WAYS WE HELP MIAMI LAW FIRMS

Everything your firm needs to *win the next client.*

From the website prospects land on to the AI that answers them at 9pm, we build the systems that turn attention into signed retainers, with your Bar rules respected at every step.

1

CUSTOM WEB

A website that closes

A fast, mobile site with clear practice-area and attorney pages, built to read cleanly to both clients and AI, with your Bar-required disclosures handled.

2

AI VISIBILITY

Found when they ask AI

Get cited when someone asks an AI "who is a good [practice area] attorney in Miami." We fix the labeling, answers, and trust signals AI looks for.

3

CUSTOM SAAS

Intake without the leaks

Custom intake forms, conflict checks, secure document upload, and matter-status pages that connect to your CRM, so no lead goes cold.

4

CUSTOM AI & FRACTIONAL CAIO

A 24/7 intake assistant

A chat and voice assistant that answers common questions, pre-screens and scores new matters, and books consults, built to meet Bar advertising rules and never give legal advice.

Built with Florida and Texas Bar advertising rules in mind: no guarantees, no misleading claims, clear firm identification, and proper disclosures.

WHERE TO START

Start with an AI Visibility audit.

We score where you stand in AI search today, show the gaps against competitors, and lay out a 90-day plan. It credits toward the full engagement.
